GOLD FROM THE MIDAS.

Rich Consignment Brought in by Manager Chipman.

A consignment of gold cyanides was received by Manager James Chipman, from the Midas property in the Deep Creek country yesterday morning. The lot consisted of sixty-one pounds and was valued at \$3,600, or better than \$60 per pound.

The shipment, Manager Chipman and All consisted of sixty-one pounds and and sold at the stock with a selling value of \$5,114.75.

Bid. Asked. Bid. Asked. Bid. Asked.

The shipment, Manager Chipman said, represented the clean-up for the first half of July, while a similar amount with corresponding value is expected to result from the last half-month's run and reach here about the 15th. Before shipping the product is allowed to dry out for about ten days, that fact accounting for the delay in the shipments reaching this end of the line following the semi-monthly cleanline following the semi-monthly clean-

asked concerning a report which reached here two or three days ago to the effect that the company's mine and mill had been closed down on account of lack of water with which to operate the mill, Mr. Chipman said he had received no such word and he had no idea that there was any truth in it.

"We have to hall water to run the idea that there was any truth in it.

"We have to haul water to run the mill," said he, "and the work is being done by contract. The party who has the job is a reliable man, and, though it might be possible that he had quit, I have no reason to believe that such is the case. We expect to run the mill just as long as weather conditions will. permit, or until late in the fall."

MINING REVIVAL AT HAND.

C. E. Hudson Brings Gratifying Re-

ports From Investment Centers. C. E. Hudson, who has been in the east for more than a month past on business connected with some of the mining enterprises in which he is interested, returned home Tuesday night. On his way back he visited the big show at St. Louis, and reports having enjoyed the diversion very much. Of

his own business affairs Mr. Hudson said he did not care to speak, as there was nothing in connection with them that could be of public importance.

"Of course," said Mr. Hudson, "the slaughter of Daly-West has had a rather depressing effect on western stocks and a feeling has been wrought up that there must be something radically wrong. However, I am sure there is more interest taken in western stocks than there was when I was back there three or four months ago. There there three or four months ago. There is a great deal of interest taken in western mining affairs and there is any amount of capital ready to embark in
